INTRODUCTION

INTERNATIONAL AEROSPACE ABSTRACTS (IAA) is an abstracting and indexing service covering the world's published literature in the field of aeronautics and space science and technology. IAA is issued semimonthly, on the 1st and 15th of each month.

Coverage of Published Literature

The following types of publications are covered in IAA:

- Periodicals (including government-sponsored journals) and books.
- Meeting papers and conference proceedings issued by professional societies and academic organizations.
- Translations of journals and journal articles.

Coverage of Reports ("Unpublished" Literature)

Abstracts and indexes of report literature are issued in SCIENTIFIC AND TECHNICAL AEROSPACE REPORTS (STAR), which is published by the Scientific and Technical Information Division, National Aeronautics and Space Administration.

By special arrangement between NASA and the American Institute of Aeronautics and Astronautics, IAA is issued in coordination with the twice-monthly schedule of STAR, which appears on the 8th and 23rd of each month.

IAA and STAR utilize both identical subject categories and indexes, which are described below.

Thus the two services provide comprehensive access to the national and international unclassified report and published literature of current significance to aerospace science and technology.

Arrangement of the Semimonthly Issues

IAA is arranged in two major sections:

- (1) Abstracts Section. This section contains complete bibliographic citations with informative abstracts, arranged by appropriate subject categories to facilitate scanning. The subject categories are numbered from 01 to 34, and the scope of each category is outlined in the Table of Contents and again at the beginning of each category in the Abstracts Section. Each abstract is prefixed by the IAA accession number.
- (2) Index Section. Four indexes are contained in this section: Subject, Personal Author, Meeting Paper and Report Number, and Accession Number. Each index is prefaced by explanatory notes to guide the user to the desired abstract.

Cumulated Indexes

Cumulated indexes are prepared and issued promptly at the end of each quarter year, with the 4th quarterly being the Annual Index.

Each cumulated index contains the following sections: A—Subject Index, B—Personal Author Index, C—Contract Number Index, D—Meeting Paper and Report Number Index, and E—Accession Number Index.

Guide to the Subject Indexes

A GUIDE TO THE SUBJECT INDEXES FOR STAR has been issued by the Scientific and Technical Information Division of NASA. This publication contains an alphabetic listing of the subject headings and cross-references used in both STAR and IAA indexes, which use the same subject terminology.

Subscribers to the IAA Cumulated Indexes may obtain copies of the guide by writing to the AIAA Technical Information Service, 750 Third Avenue, New York, N.Y. 10017.

Information regarding SCIENTIFIC AND TECHNICAL AEROSPACE REPORTS and the availability of INTERNATIONAL AEROSPACE ABSTRACTS to organizations having contractual arrangements with NASA may be obtained from the following address:

how to obtain publications abstracted

All publications abstracted are available from the AIAA Technical Information Service.

Address all inquiries and requests to:

TECHNICAL INFORMATION SERVICE
AMERICAN INSTITUTE OF AERONAUTICS
AND ASTRONAUTICS, INC.
750 Third Avenue, New York, N. Y. 10017

Telephone: 212 TN-7-8300
TWX: 212 867-7265

Document services are provided as follows:

- Paper copies of accessions announced in *IAA* and of other published articles in the TIS library are available at \$3.00 per document, regardless of the number of pages.
- Paper copies of accessions announced in *Scientific and Technical Aerospace Reports (STAR)* and of similar unpublished reports in the TIS library are available at the rate of \$0.25 per page, minimum order \$3.00.
- Microfiche of documents announced in *IAA* are available at the rate of \$0.50 per microfiche on demand. Documents available in this manner are identified by the symbol # following the accession number in the Abstracts Section and in the Meeting Paper and Report Number and the Accession Number Indexes.
- Minimum air-mail postage to foreign countries is \$1.00.

A number of publications, because of their special characteristics, are available only for reference in the library.

PLEASE REFER TO THE ACCESSION NUMBER WHEN REQUESTING PUBLICATIONS.

NOTE: The AIAA does not sell the publications abstracted except those issued by AIAA.

LISTING OF PERSONAL AUTHORS
OF PUBLICATIONS

The title of the publication—not the Notation of Content—appears under each author listing. In the case of a foreign-language title, the English translation appears first. The accession number is located under and to the right of the title. It is preceded by numbers identifying the issue and page of International Aerospace Abstracts where the abstract is located.

To illustrate:

Issue Number	Page Number	Accession Number
01	p0007	A67-11162

To compensate for computer printing limitations, substitutes have been used for certain punctuation marks, as follows: / for parentheses, * for the apostrophe and single quotation marks, and ** for double quotation marks. For the same reason, mathematical signs and symbols have been expressed in words.
